Monthly Calling Plans	Choose your calling plan

### About VoiceLine

VoiceLine is a low-cost phone service that is an alternative to your traditional phone line. With a telephone, broadband Internet connection and a telephone adapter, VoiceLine allows you to make and receive calls at home or anywhere in the world. Since calls route through the Internet, the costs are less and the savings are passed onto you.

**Getting started** Getting started with VoiceLine is easy! You will need:

A broadband Internet connection (DSL, cable, T1, or satellite)

Voice Line equipment. (An InnoMedia MTA 3328-2R telephone adapter with built-in router) \$139.99

A VoiceLine account, calling plan, and phone number

A regular telephone (cordless or wired)

Once you receive your telephone adapter, setup is simple. Plug your phone into your telephone adapter and then connect the adapter to your broadband modem as shown in the diagram below.

**Monthly calling plans** VoiceLine offers a variety of calling plans to meet your unique calling needs. Each monthly plan includes either unlimited or a fixed number of minutes to select in-plan destinations.

**Calling features** All monthly calling plans include great features such as VoiceMail, call waiting, caller ID, 3-way calling, and call forwarding -- at no extra charge. VoiceLine-to-VoiceLine calls are also free.

**Choose your VoiceLine phone number** With VoiceLine, you can choose a number in US. Want your family and friends to be able to call you for less? VoiceLine lets you add additional phone numbers to your service with the calling area of your choice.

For example, if you live in New York City and have family in Miami, you can choose an additional phone number with a Miami area code. Now, when your family calls you, they will be charged the cost of a local call -- even though they are speaking to you in New York!

**Monthly billing** VoiceLine is a prepaid service, so you will not receive a bill in the mail. Each month your credit card will be charged the price of the plan you selected. Out-of-plan and overage calls will be charged to your credit card at the end of your current monthly cycle or when the amount of these calls exceeds \$25, whichever comes first.

**Manage your account online** You can log into the VoiceLine account center for a summary of your account, recent calls, and transactions. You can also listen to your VoiceMail messages, manage your feature settings, and update your account information.

## Calling Plans & Rates

**Save on calls to the places you call the most** Each VoiceLine monthly plan includes either unlimited or a fixed number of minutes to select in-plan destinations. Please refer to the chart below for plan details and prices.

**Great rates all over the world** You can also call any country that is not included in your monthly calling plan. Calls to out-of-plan destinations (as well as overage calls) will be charged at low per-minute rates to your VoiceLine account. To view out-of-plan rates, click the Details & Rates links below.
